Northern California – Significant Activity

8.3 Magnitude Earthquake, Illapel, Chile

- On 9/16/15 at 1555 hours Pacific Daylight Time, a Magnitude 8.3 Earthquake occurred near the coast of central Chile at a depth of 8.1 miles. The earthquake, originally reported as a M7.9, was upgraded after seismologists reviewed additional data and analysis. This was followed by a series of aftershocks in the M5 to M6 range. The National Oceanic and Atmospheric Administration (NOAA) has evaluated the potential for a tsunami impacting the Western United States and has issued a Tsunami Advisory for coastal areas of California from San Onofre State Beach, San Diego County to Ragged Point, San Luis Obispo County. Cal OES and California Geologic Survey are participating in regularly-scheduled conference calls with the National Tsunami Warning Center followed by calls with the County Operational Areas throughout the evening. The calls are intended to ensure current and accurate information is conveyed to local emergency managers.
- The NTWC reports that, based on the earthquake magnitude, location, and style of fault rupture, a tsunami capable of producing strong currents or waves dangerous to persons in or very near the water is expected. Currents may be hazardous to swimmers. Boats, and coastal structures and may continue for many hours after the tsunami arrival.

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

Weather of Concern

A fall weather system will move across Northern California today spreading precipitation south and east to around the Interstate 80 corridor. Precipitation amounts of a quarter to half an inch will be possible in the Coast Range with much lighter amounts expected further inland. Snow levels will lower to around 7000 feet bringing some light accumulations to the peaks of the southern Cascade Range and far northern Sierra. For Southern California, showers will end by late morning as the upper-level trough moves east. Building high pressure will help raise high temperatures gradually through next Monday. Highs will be around 5 to 10 degrees above normal by Sunday. There are no Flood Advisories, Watches, or Warnings in effect at this time.

Active Weather Warnings, Watches and Advisories by County:

http://www.wrh.noaa.gov/sto/brief/wwwa_bc_cal.php

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

Scattered showers north of Cape Mendocino will dissipate through the morning today with gradually clearing skies expected. Temperatures today will be mild, but a significant warming and drying trend is expected Friday into the weekend.

Medford Weather:

Cloud cover will diminish this afternoon into tonight and aid substantial cooling overnight. West side valley low temperatures on Friday will be in the upper 30s to upper 40s while a Freeze Watch has been issued for east side valleys with lows in the mid-20s to mid-30s forecast and frost a very strong likelihood.

Reno Weather:

As drier conditions return today, temperatures remain cooler than average through Friday morning before a warming trend follows into the weekend.

San Francisco Weather:

It will be dry and seasonable today under partly cloudy skies. A warming and drying trend starts Friday and continues through the weekend with Sunday looking to be the hottest day. Offshore flow will bring warm temperatures all the way to the beaches. Subtle cooling trend will bring conditions back to near normal temperatures by early next week.

WEATHER

WEATHER SYNOPSIS BY REGION:

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:

Sacramento Weather:

A few light showers will occur across northern California this morning, otherwise warming and drying today through the end of the week. Breezy north to east winds this afternoon through Saturday night. Dry, with warmer than normal conditions, can be expected next week.

Hanford Weather:

Dry weather can be expected across the central California interior through Monday as high pressure builds in from the Pacific. A day to day warming trend through the period will bring temperatures well above seasonal normals by Saturday.

SOUTHERN CALIFORNIA:

Los Angeles Weather:

The temperatures will be above normal into next week with some records possible over this weekend as a high builds in. Next Monday, moisture will come up from the south and interact with unstable air for a slight chance of thunderstorms or showers into midweek.

Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

A low pressure trough in the west will weaken and be replaced by a ridge of high pressure through the end of the week. The ridge will bring sunny and warmer days through the weekend. For Sunday through Wednesday, hot and humid weather will return with tropical moisture bringing clouds and a chance of showers and thunderstorms.

Southeast California Weather:

Progressively drier air will spread over the next few days as westerly flow becomes firmly entrenched across southeastern California. Rainfall chances will be negligible heading through the weekend. Temperatures will remain a few degrees below normal through Friday before warming to near average levels by the weekend. Much better rainfall chances will arrive next week as tropical moisture spreads into the area from the south.

Key Points

09/17 – 09/23

Thursday

- Cool and somewhat wet pattern continues over northern third of California
- Dry with near normal temperatures southern two thirds
- Breezy north winds in Central California leading to elevated fire weather concerns

Friday-Sunday

- Dry with temperatures warming to near to above normal
- Breezy north winds in Central California leading to elevated fire weather concerns

Monday-Wednesday

- A chance of showers, locally heavy at times, in extreme southern California
- Otherwise, dry with slightly cooler temperatures

SITUATION SUMMARY

FIRES, NORTHERN OPERATIONS AREA

Butte, Vegetation Fire, Amador and Calaveras County

Infrastructure

- State Water Resources Control Board (SWRCB) Department of Drinking Water (DDW) Stockton District Office reports that State regulated public water systems in the counties of Amador and Calaveras, have impacts mainly related to power outages, water systems are now utilizing generators. There are no reports of damage at this time. The Calaveras County Local Primacy Agency (LPA) have several systems in the area that are under evacuation. Once evacuation orders are rescinded the LPA will assess the situation. SWRCB DDW staff continues to monitor the incident(s) within their areas of responsibility and report status.
- Per Cal EPA EF 10 Coordinator as of 1400, 09/11/15:
 - SWRCB Division of Drinking Water reached out to local engineers in Calaveras County and determined that the current water system issues were all power related. Portable power is being used to address the issues.
- Per CUEA 1000 09/16/15: Fire is interrupting utilities for 2,536 customers in Calaveras and Amador counties. 5500 assets to assess, with the potential of 500-600 poles and associated hardware that may need replacement.
 - No impact to PG&E Hydro Generation.
 - All five cell towers impacted presently on full portable generation.
 - East Bay Municipal Utilities District reporting no impact to their water system.
- Per Cal OES Public Safety Communications: The communications site Sierra Vista has burned over due to the Butte Fire. State agencies who are in that site are CALFIRE, Department of Transportation (DOT) and California Highway Patrol (CHP). A technician responded to the site to assess the damage.
 - Phone lines and power are down.
 - CALFIRE has a portable repeater being installed at the site. CALFIRE is operational.
 - CHP is using coverage of other sites. CHP is down because the repeater is phone line controlled.
 - DOT is operational.
- Per Cal OES Public Safety Communications: CAL-Fire TCU headquarters in San Andreas is currently being evacuated. PSC has a shop located within that facility. PSC technicians were evacuated out of the facility. A snowcat assigned to the facility was towed out and the test equipment was also removed by the technicians.
- Per the Cal OES Critical Infrastructure Protection (CIP) Division: There are seven CIP identified, state-level, critical infrastructure sites that meet the draft criteria and are within 10 miles of the fire – Amador County EOC, their Department of Public Health main office, Calaveras County EOC, their Department of Public Health main office, the origin of the Mokelumne Aqueduct, the Pardee Dam and Reservoir, and the Jackson Creek Spillway and Dam. The buildings are vulnerable to fire but the two dams and aqueduct are generally less vulnerable to fire. Other infrastructure noted in the 10 mile radius are multiple PSC communications towers, 5 hydro power plants (99, 14, 4.5, 1.4, .23MW), multiple associated substations, multiple transmission lines (230, 115, 80, 60kV, +), and two natural gas lines (12 and 10 inch).

Butte, Vegetation Fire, Amador and Calaveras County**Resource/support requests:**

- CA National Guard deployed eight (8) handcrews requested for Butte Fire four handcrews (4) in mobilization process at Camp Roberts
- Cal OES IA submitted a request to mission task one employee from EMSA to provide IA support in Calaveras County EOC located at 1045 Jeff Tuttle Drive, San Andreas 2nd floor. Staff is on site.
- An IA joint Preliminary Damage Assessment (PDA) will begin on Thursday, September 17, 2015, in Calaveras County. The team will meet at 2755 Mission Rancheria Road, to assess damages to homes, businesses, and nonprofit organizations. The IA PDA team will include Cal OES IA, County OES, FEMA, and U.S. Small Business Administration.
- A Local Assistance Center will operate on Friday, September 18, 2015 – Monday, September 21, 2015, at the Calaveras County Government Center located 891 Mountain Ranch Road, San Andreas, CA 95249. Hours of Operation are Friday, September 18, 2015, Noon to 7:00 PM and Saturday, September 19, 2015 thru Monday, September 21, 2015 7:00 AM to 7:00 PM. The LAC may operate the same schedule the following week and operating hours are subject to change based on need. The following agencies were asked to participate:
 - Department of Insurance
 - Contractors State License Board
 - Department of Motor Vehicles
 - Franchise Tax Board
 - Board of Equalization
 - California Veteran's Affairs
 - Employment Development Department

Recovery/Debris Management

Per Cal OES/TAP 09/16/15: The Department of Resources Recycling and Recovery (CalRecycle) and Cal OES have been tasked with supporting Lake, Trinity and Calaveras Counties in the management of debris removal operations. CalRecycle's Incident Management Team (IMT) will be assisting each County to clear the debris, provide certification of cleanup, and track costs for each County on a site-specific basis. As part of the work, CalRecycle is preparing a Debris Removal Operations Plan (Operations Plan) for each of the three affected Counties, which identifies the procedures, and best management practices for undertaking the removal of debris from the residential structures to protect response personnel, the surrounding community, public health, and the environment. Information related to this project was obtained by CalOES, other CalEPA regulatory partners, and local government agencies.

California Department of Toxic Substances Control (DTSC) Emergency Response (ER) will be assessing and removing asbestos and household hazardous waste from homes destroyed by fire in Calaveras County. ER is coordinating with Calaveras County Public Works and Environmental Health Departments to begin assessment and removal activities there once the access agreements are obtained from affected property owners. Due to the large number of homes destroyed in the Valley Fire (Lake County), ER proposed to USEPA that they handle assessment and removal activities and ER will cover the transportation and disposal of household hazardous waste and asbestos.

Threat to Waterways, Water Sources, Natural Habitat/Species, State Parks and Historical or Tribal Lands/Assets

- Overall, it appears that the water systems impacted by fires have lost above ground structures and electrical/controls, however, the majority of the systems that have steel tanks appear to be intact and operational. Some water systems have lost connections and will need to modify equipment and/or operations to meet reduced demands when the evacuations are lifted. (Updated 09/16/15 at 1100)
- Anderson Marsh Historic Ranch House was evacuated on 9/14/2015. Cultural Recourses will be collected and moved to a secure location.
- Per EF-8, a number of drinking water systems in Lake County were damaged or disrupted. The State Water Boards Division of Drinking Water is working with the county and has a representative in the Lake County EOC providing direct coordination. **Update 09/15/15** Per State Water Board, in general, power outages have caused the largest problem with drinking water systems and many are running on generators. CUEA is working with the Lake County EOC to restore power. A few systems have been damaged and some are still assessing the damage.

Per Cal OES Tribal:

- A Cal OES Tribal representative has reached out to possible affected tribes and is awaiting a response.

Access and Functional Needs

Local authorities supporting local shelters with nursing, medication acquisition and guidance for refill requests.

Per Cal OES Chief of the Office of Access and Functional Needs (OAFN):

- Chief of OAFN conducted site visits at various shelters and have identified gaps in accessibility. In coordination with the Red Cross, upgrades/improvements are being made including bringing in portable accessible showers, toilets, designation of additional handicap designated parking (and signage), ramps and clearing aisles to make general population areas easier to navigate.

Health and Medical

Per Red Cross:

- Red Cross Integrated Care Team (ICT) has deployed to the Calistoga shelter. ICT is comprised of Disaster Mental Health, Disaster Health Services, Bulk Distribution, water and client assessment. These teams typically go house to house in communities.
- Shelter wrap-around services and supplies are sufficient at this time. Red Cross is continuously monitoring and evaluating to ensure communication occurs early if support needed.

Per EMSA:

- Emergency Medical Services Authority (EMSA) continues to monitor the medical impact from the fires, and remains in constant communication with the Regional Disaster Medical Health Specialists (RDMHS), and Medical and Health Operational Area Coordinator (MHOAC), as well as the California Department of Public Health (CDPH). As of 09/14/2015, Ambulance Mutual-Aid has been provided to South Lake County from American Medical Response (AMR). Mutual-Aid ambulances are stationed at Whispering Pines and South Lake County Fire Station 62 (both providing support to rescuers).
- Local fire and emergency medical services resources are fully engaged. CAL FIRE requested and received approval for 2 private ambulances in support of operations through mutual aid.

Per CDPH:

- An Intermediate Care Facility/Developmentally Disabled (ICF-DD) in Kelseyville is operating at normal capacity.

Adults in Community Transitions,
4795 Gaddy Lane
Kelseyville, CA 95451

- St. Helena Hospital is reporting five (5) patients with smoke inhalation injuries. More than 100 Hospital staff lives in Middletown or Hidden Valley communities and may not be able to staff the Hospital. St. Helena Hospital is helping to support displaced staff.
- Per CDPH: there are no CDPH licensed healthcare facilities in the Hidden Valley Lake area. The nearest facility is Clearlake.
- Cal OES IA reached out to the California Department of Health Care Services to assess if the need for mental health services is beyond the capacity of the local level to respond. The department is reaching out to the county local mental health to determine if the disaster mental health needs of the communities are beyond their ability to respond. It is anticipated that mental health needs will rise as re-entry begins.

Recovery Activities:

- Per Cal EOC EF-10 (09/14/15 updates), the Department of Toxic Substances Control is coordinating with US EPA Region IX Emergency Response regarding support for hazardous waste activities following post-fire activities in impacted counties. Due to the large numbers of structures in Lake County, additional assistance will likely be requested.
- The Department of Resources Recycling and Recovery (CalRecycle), in coordination with Cal OES have been tasked with supporting Lake, Trinity and Calaveras Counties in the management of debris removal operations.
- CalRecycle's Incident Management Team (IMT) will be assisting each County to clear the debris, provide certification of cleanup, and track costs for each County on a site-specific basis.
 - CalRecycle is preparing a Debris Removal Operations Plan (Operations Plan) for each of the three affected Counties, which identifies the procedures, and best management practices for undertaking the removal of debris from the residential structures to protect response personnel, the surrounding community, public health, and the environment. Information related to this project was obtained Cal OES, other CalEPA regulatory partners, and local government agencies.
 - CalRecycle's IMT will utilize state and local employees through Cal OES mission tasking and contract support to fulfill its project management duties. CalRecycle IMT will work with each County's licensed environmental contractors and consultants to begin the evaluation and removal process from debris site subsequent to obtaining Right-of-Entry Permits from the individual property owners.
 - The California Department of Education has provided a list of closed schools and has forwarded them to CalRecycle. A list for Lake County is pending.
 - CalRecycle has requested for assistance in operations planning from CalOSHA for the health and safety component of debris removal operations. CalOHSA has made available a staff member of the DOSH Emergency Response team. Onsite support may be available for a limited basis.
